

FRIENDS OF MINERALOGY

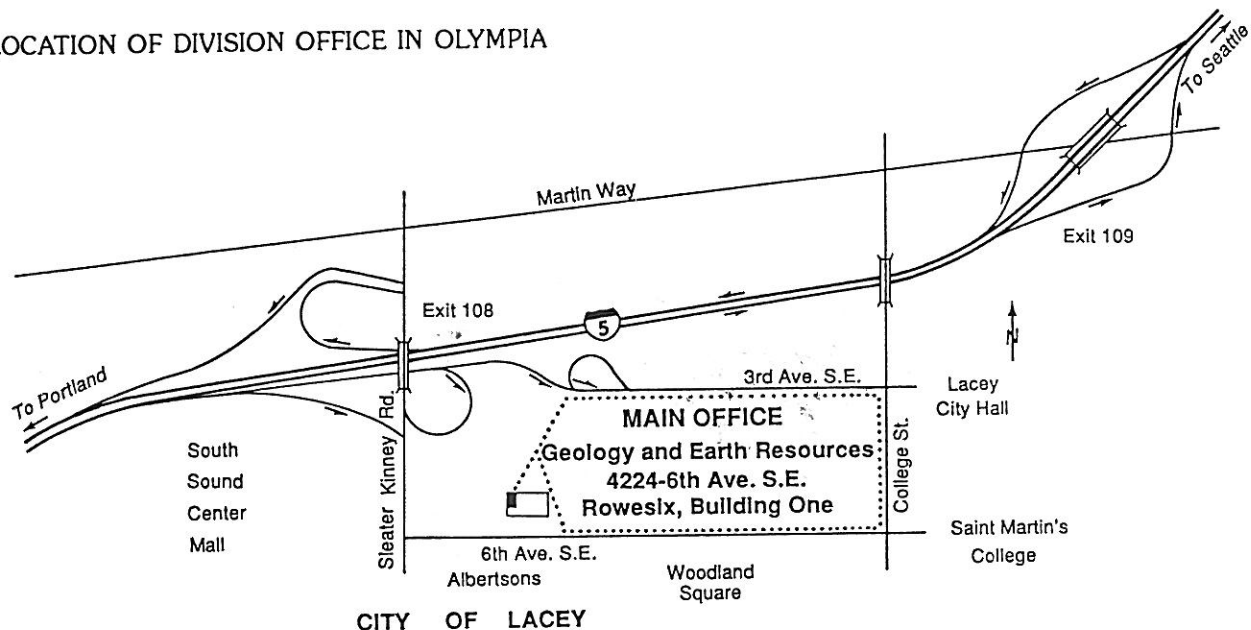

MEETING NOTICE

The next meeting of the Pacific Northwest Chapter will be at 10:30 a.m. on Saturday, April 27th, at the Division of Geology and Earth Resources office in Lacey, Washington. For the program, we will show a video on Hawaii volcanoes and Ray Lasmanis will present slides "Tucson 91 - there and back." During the business meeting, plans will be made for the North Cascades field trip and our fall symposium.

DUES NOTICE

Examine your mailing label. If you are not current, please send your dues to **Cheryl Stewart, Treasurer, 511 Choker Court SE, Lacey, Washington 98503**. Dues for 1991 have gone up to **\$15.00** - inflation, such as national FM taking an increased share of the dues, higher postage rates, etc., caused us to increase the dues during the last meeting. We value your membership. At this time of the year the treasury needs to be replenished so that we can prepare for the fall symposium.
